

EXPRESS

RELIGHT EXISTING RAILS

Using your existing lighting track (L-type) you can easily swap out your current lights for Linno's LED linear modules. The Express is the quickest and easiest way to enjoy linear lighting.

Express quick guide ▼

1. RELEASE
Release the handle on either side of the Express lamp module by opening it 90°.

2. PUSH
Once released push the Express lamp module into the installed lighting track.

3. CLOSE
Close the previously opened handles to secure the lamp fixture into position.
